

CitiBike Data

from July 15th, 2019

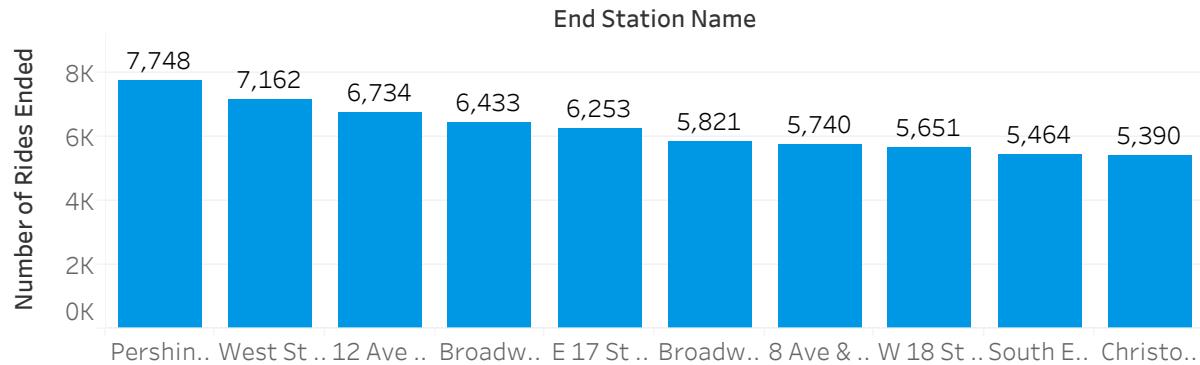

Lauren Hilinski

Starting Station: Most Popular and Avg. Trip Duration

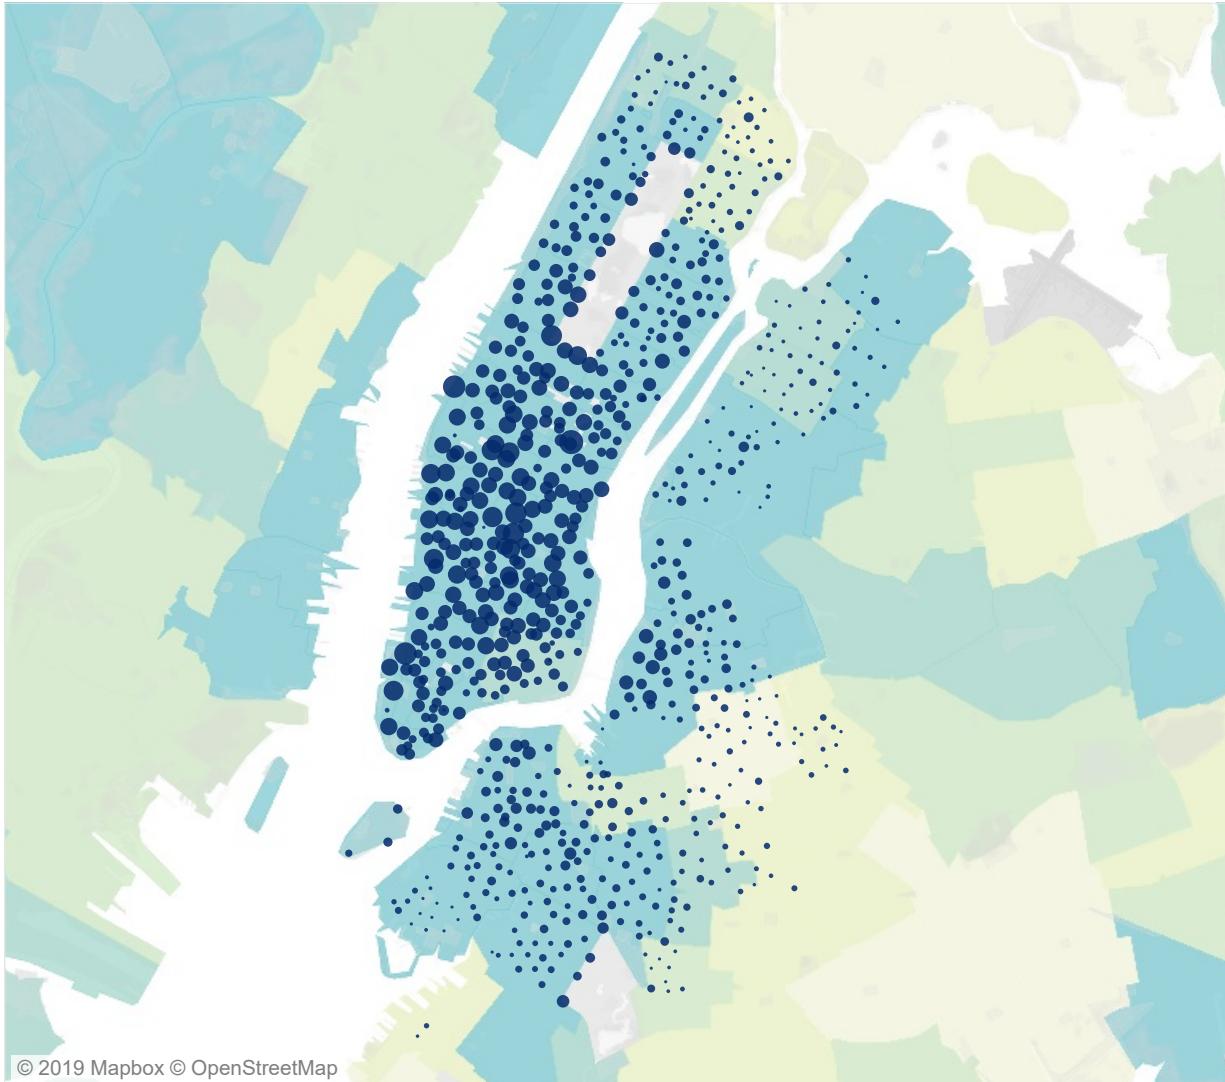

The most frequented stations and the stations that produce the longest avg. trip times do not correlate.

Ending Station: Most Popular

The top 10 most popular starting stations and stopping stations are nearly identical. These stations get a lot of traffic and may deserve more attention/maintenance than other stations.

Most Popular Starting Stations

Number of Starting Trips

- 1
- 2,000
- 4,000
- 6,000
- 7,793

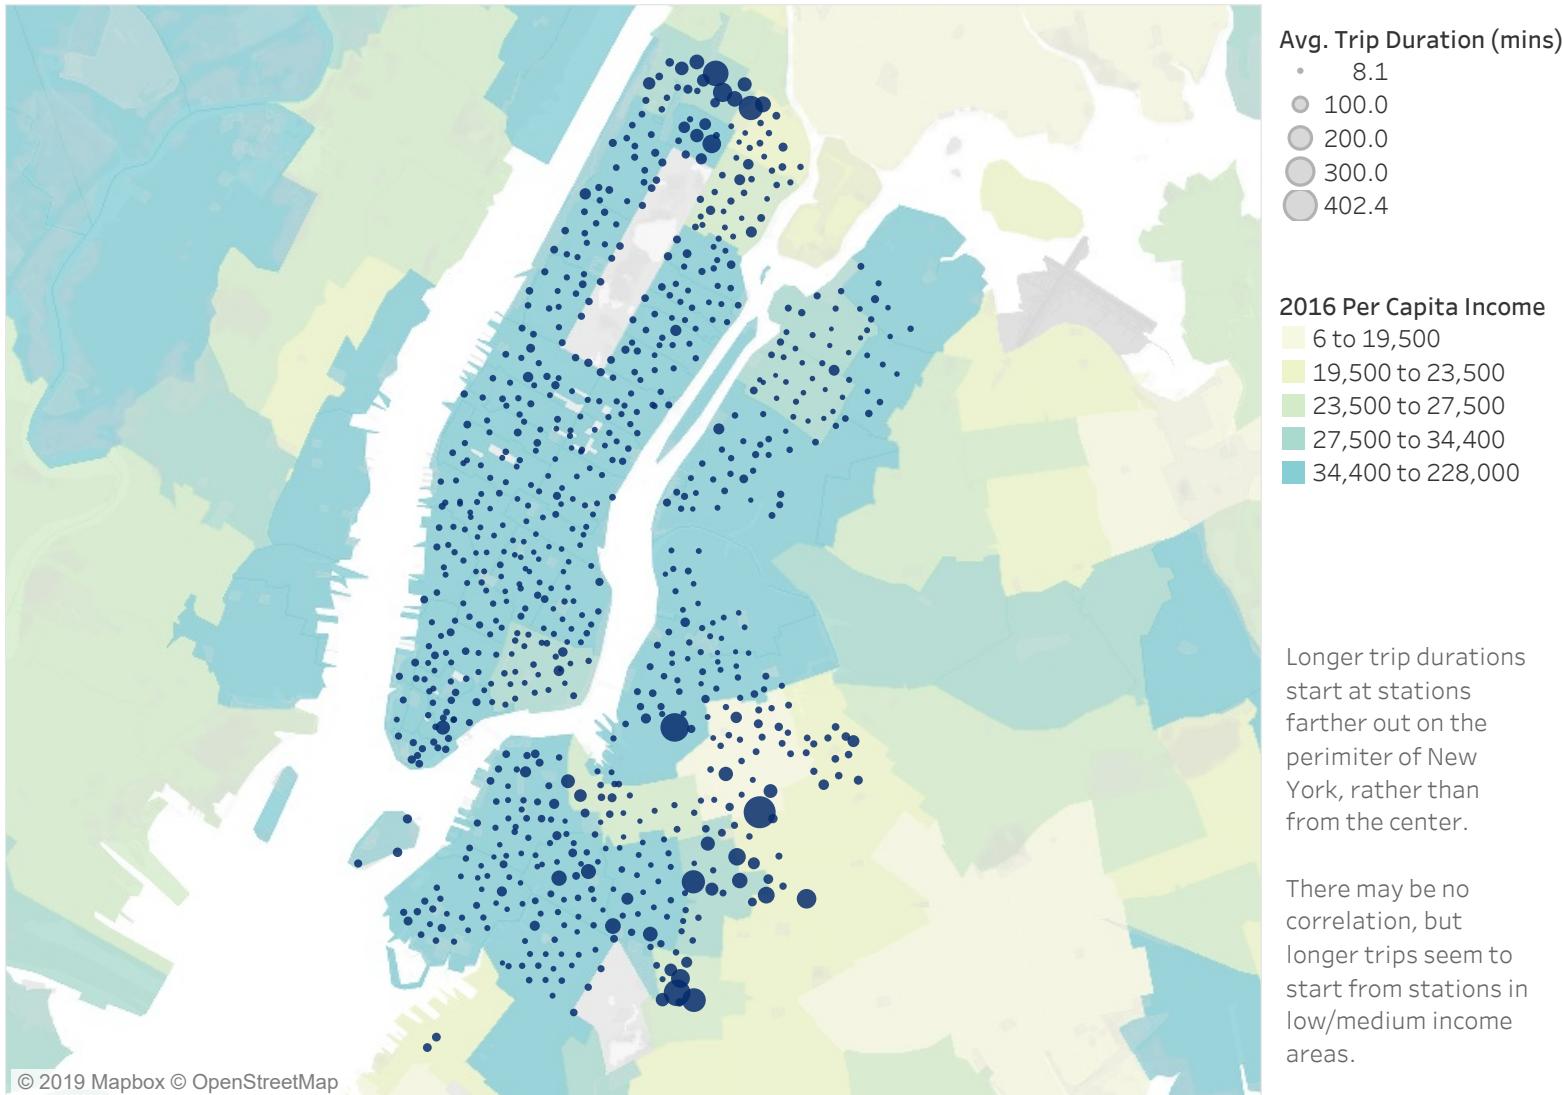

2016 Per Capita Income

- 6 to 19,500
- 19,500 to 23,500
- 23,500 to 27,500
- 27,500 to 34,400
- 34,400 to 228,000

Trips most often start from centrally located stations.

Most rides start in higher income areas (as of 2016 data).

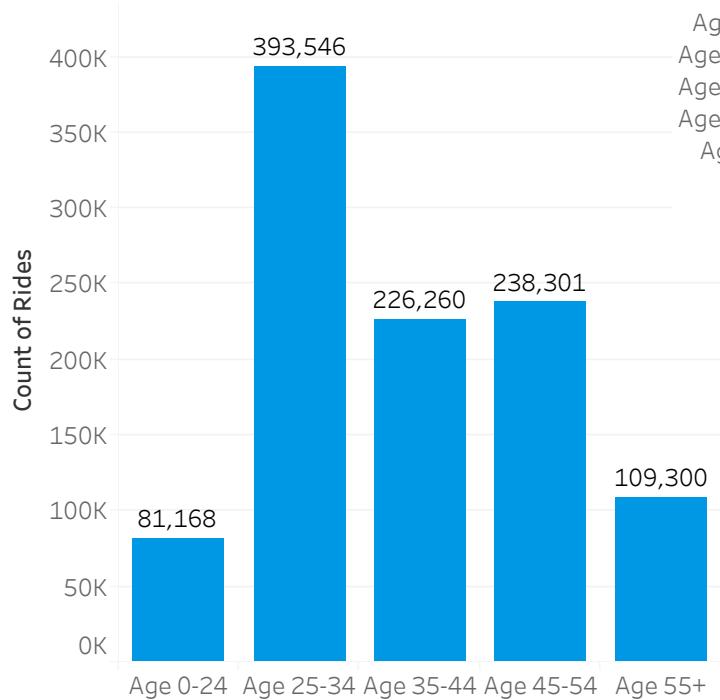

Starting Station Trip Duration

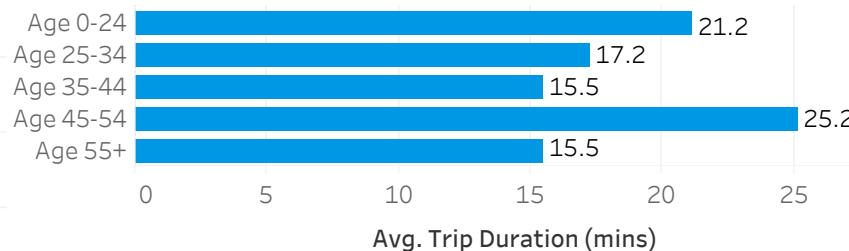

Rider Birth Years

Number of Trips by Age

Avg Trip Duration by Age

Many CitiBike riders were born in the late 60's, meaning they are currently in their early 50's. There is also a large portion of younger riders between the ages of 25 and 35.

Younger riders are responsible for the largest share of trips.

However, riders between the ages of 45 and 54 are taking the longest trips.

This could affect how you market your services to different age groups.

Number of Trips by Gender

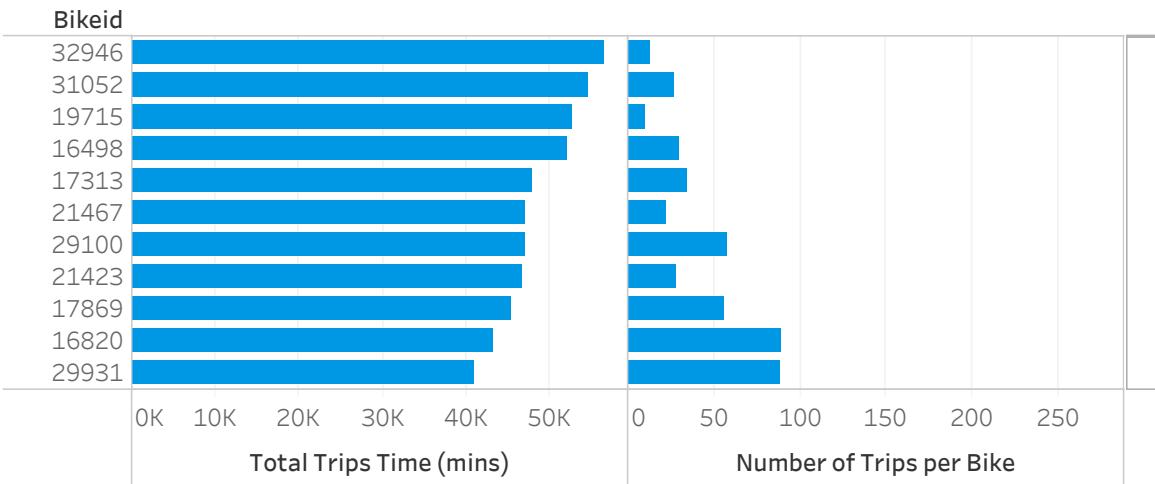

Men are responsible for more than half of total rides, which may influence future marketing and product design considerations.

Avg Trip Duration by Gender

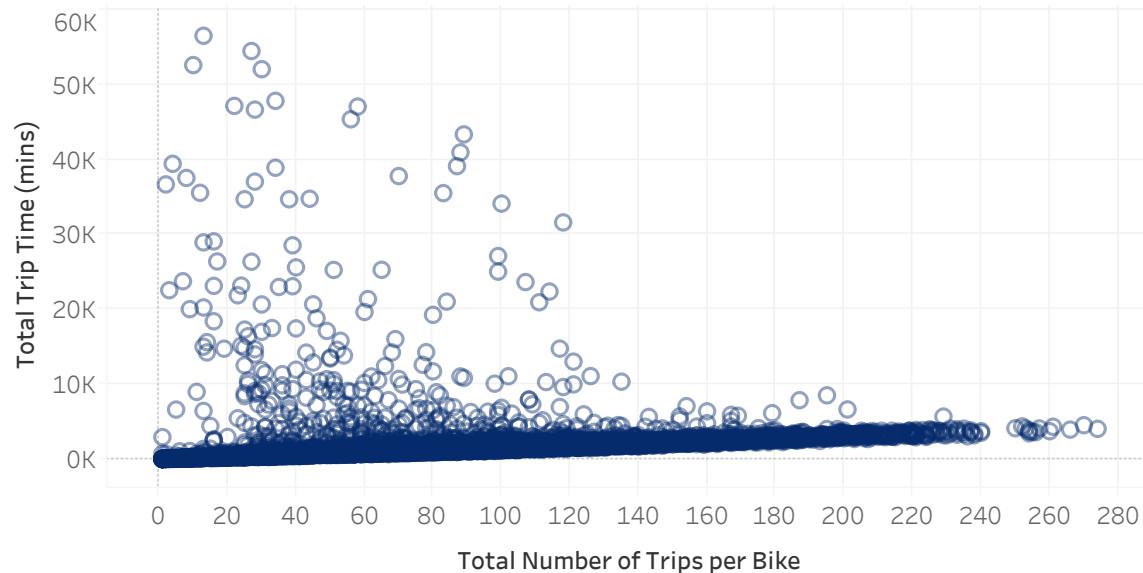

Women seem to go on slightly longer rides than men, however gaps in the data make it difficult to determine which gender (if any) truly averages the longest rides.

Total Time per Bike & Num of Trips

Identify which bikes might need service due to overuse, and potentially rotate bikes across high/low use stations for longer bicycle lifecycles.

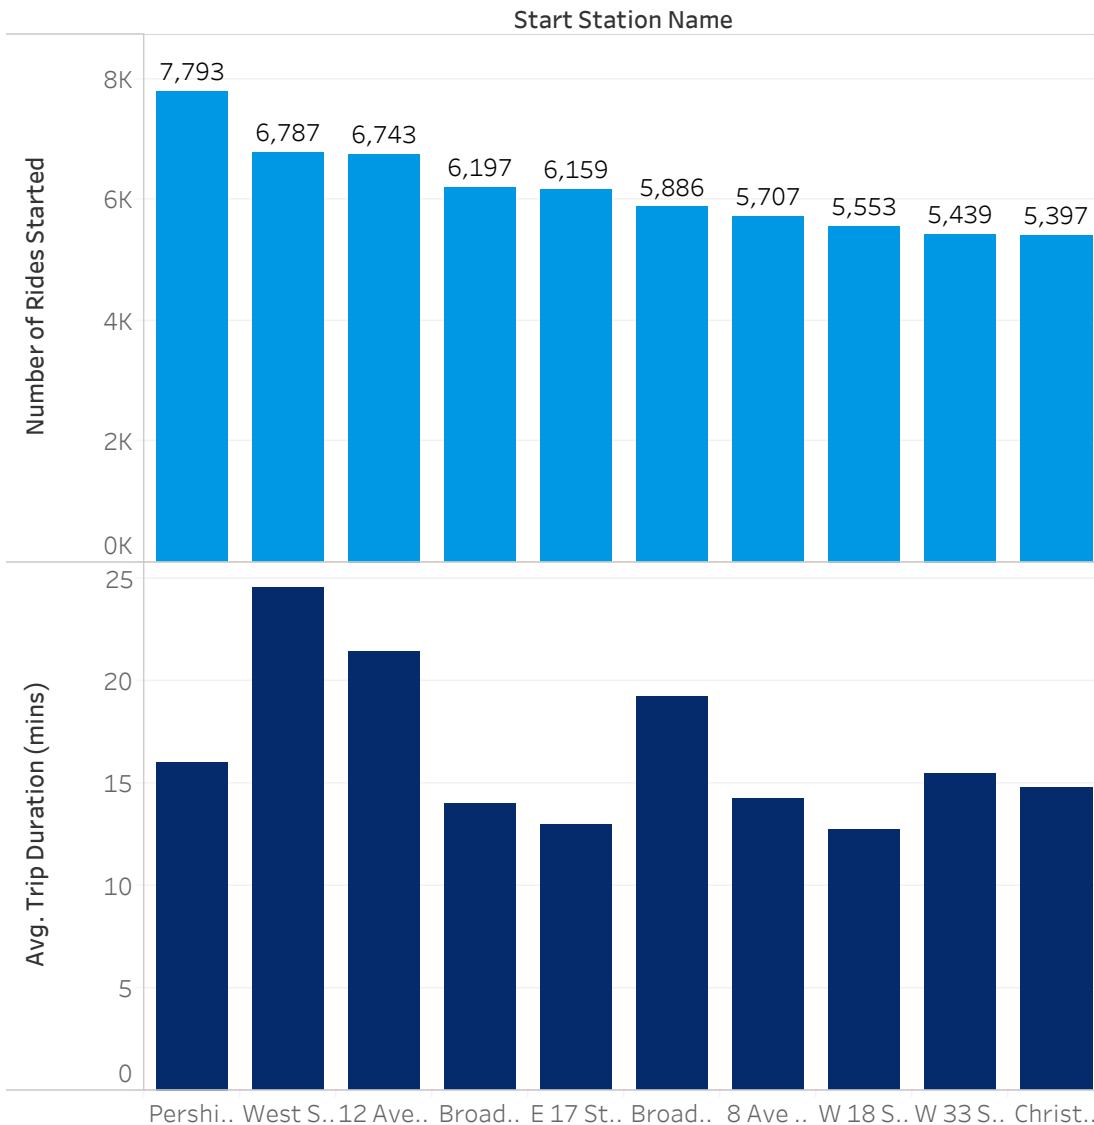

Bike Usage

Most bikes get ridden a large number of times for short periods of time, resulting in low total time spent on the bike. Bikes with hundreds of hours worth of trips can be spotted here and checked in for maintenance.

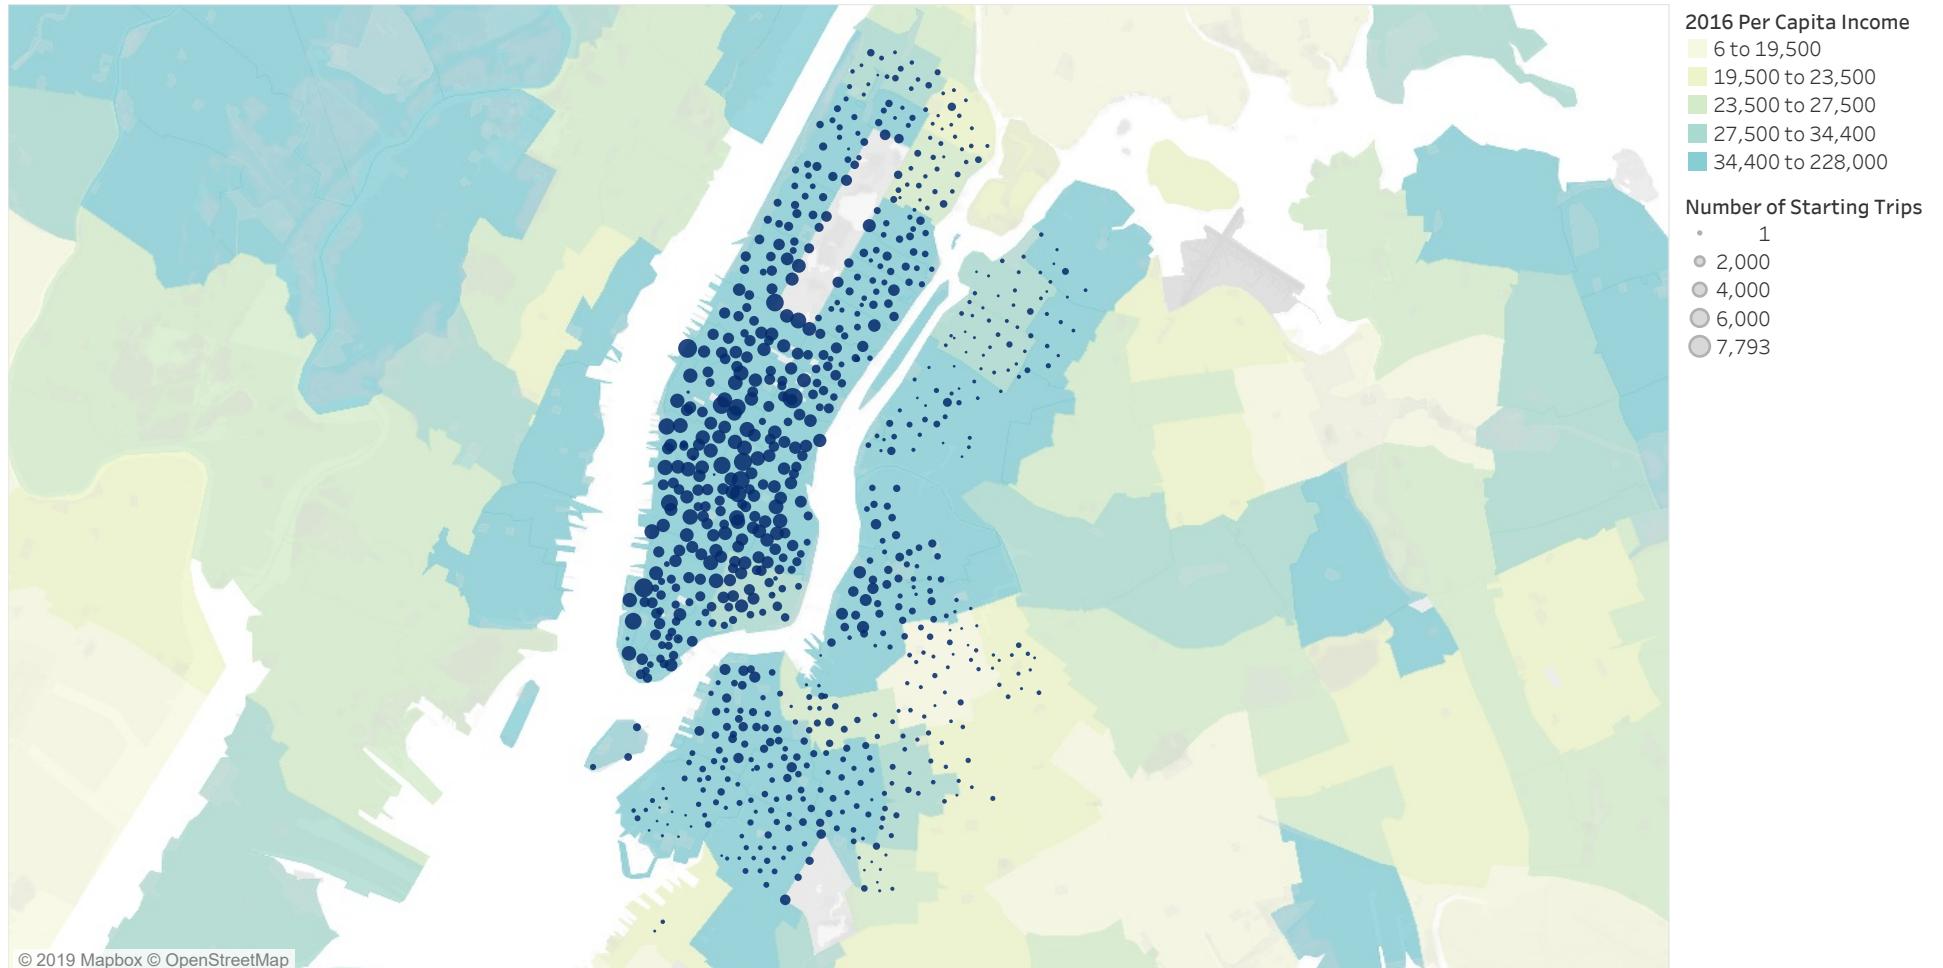

The End

Starting Station: Most Popular and Avg. Trip Duration

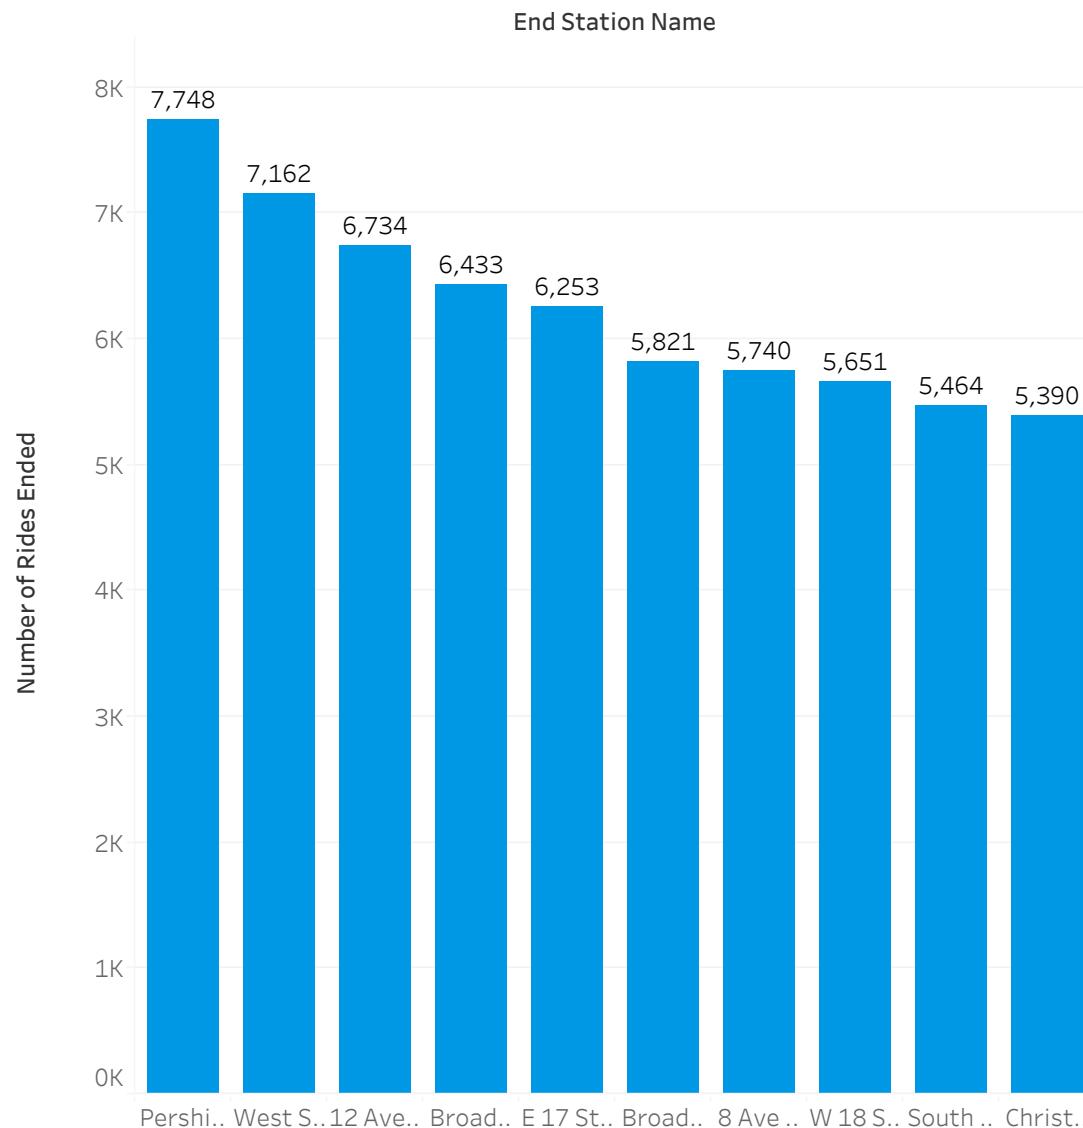

Count of Number of Records and average of Trip in Mins for each Start Station Name. For pane
Count of Number of Records: The marks are labeled by count of Number of Records. The view is
filtered on count of Number of Records, which ranges from 5,352 to 7,793 and keeps Null values.

Most Popular Starting Stations

Map based on Start Station Longitude and Start Station Latitude. Size shows sum of Number of Records. Details are shown for Start Station Name. Map coloring shows 2016 Per Capita Income by Zip Code.

Ending Station: Most Popular

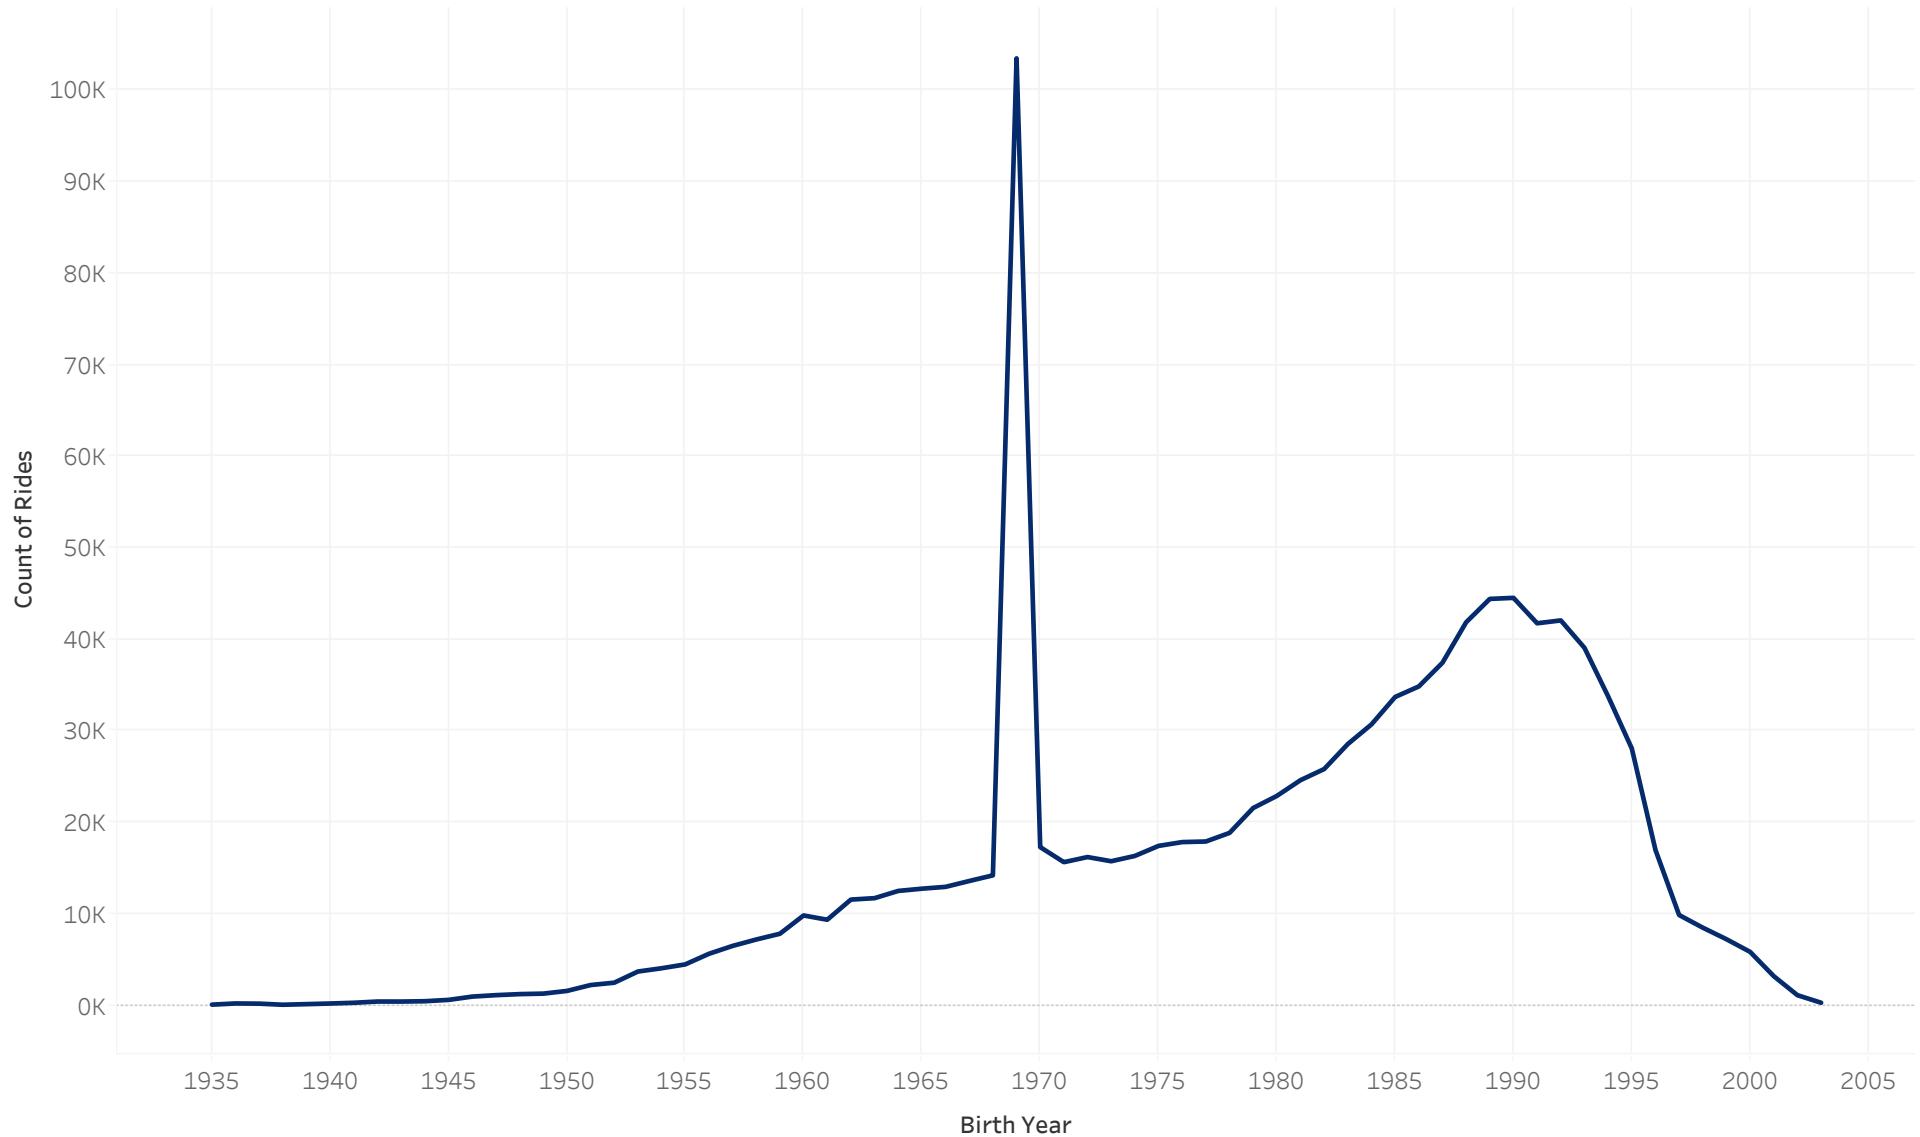

Count of Number of Records for each End Station Name. The marks are labeled by count of Number of Records. The view is filtered on count of Number of Records, which ranges from 5,367 to 7,748 and keeps Null values.

Starting Station Trip Duration

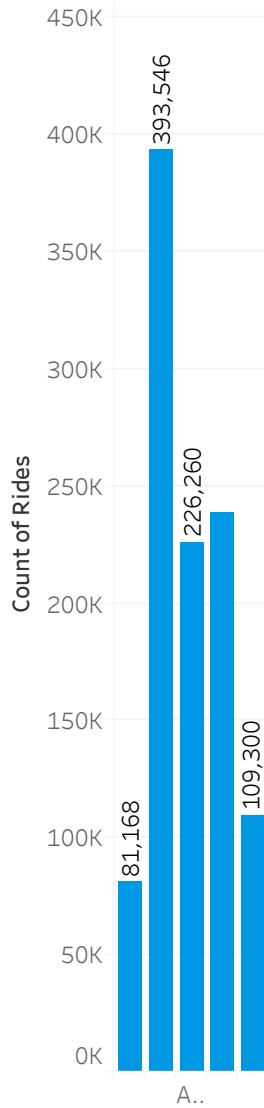

Map based on Start Station Longitude and Start Station Latitude. Size shows average of Trip in Mins. Details are shown for Start Station Name. Map coloring shows 2016 Per Capita Income by Zip Code.

Rider Birth Years

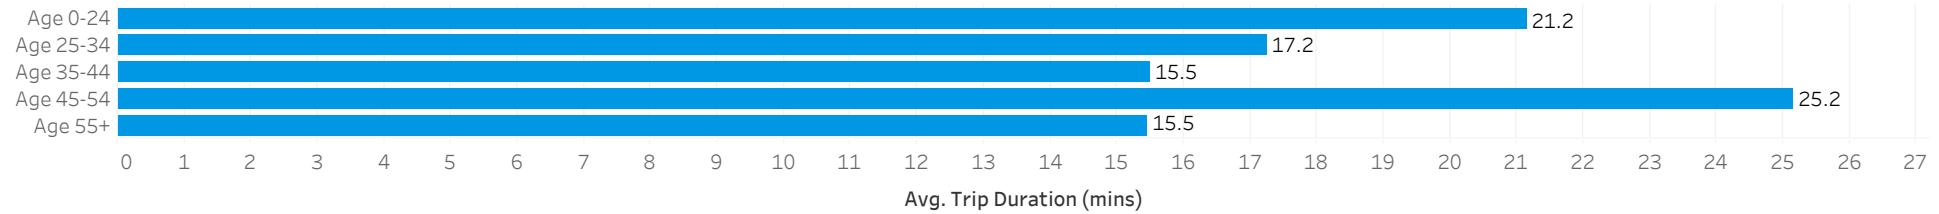

The trend of count of Birth Year for Birth Year. The view is filtered on Birth Year, which ranges from 1935 to 2003 and keeps Null values.

Number of Trips by Age

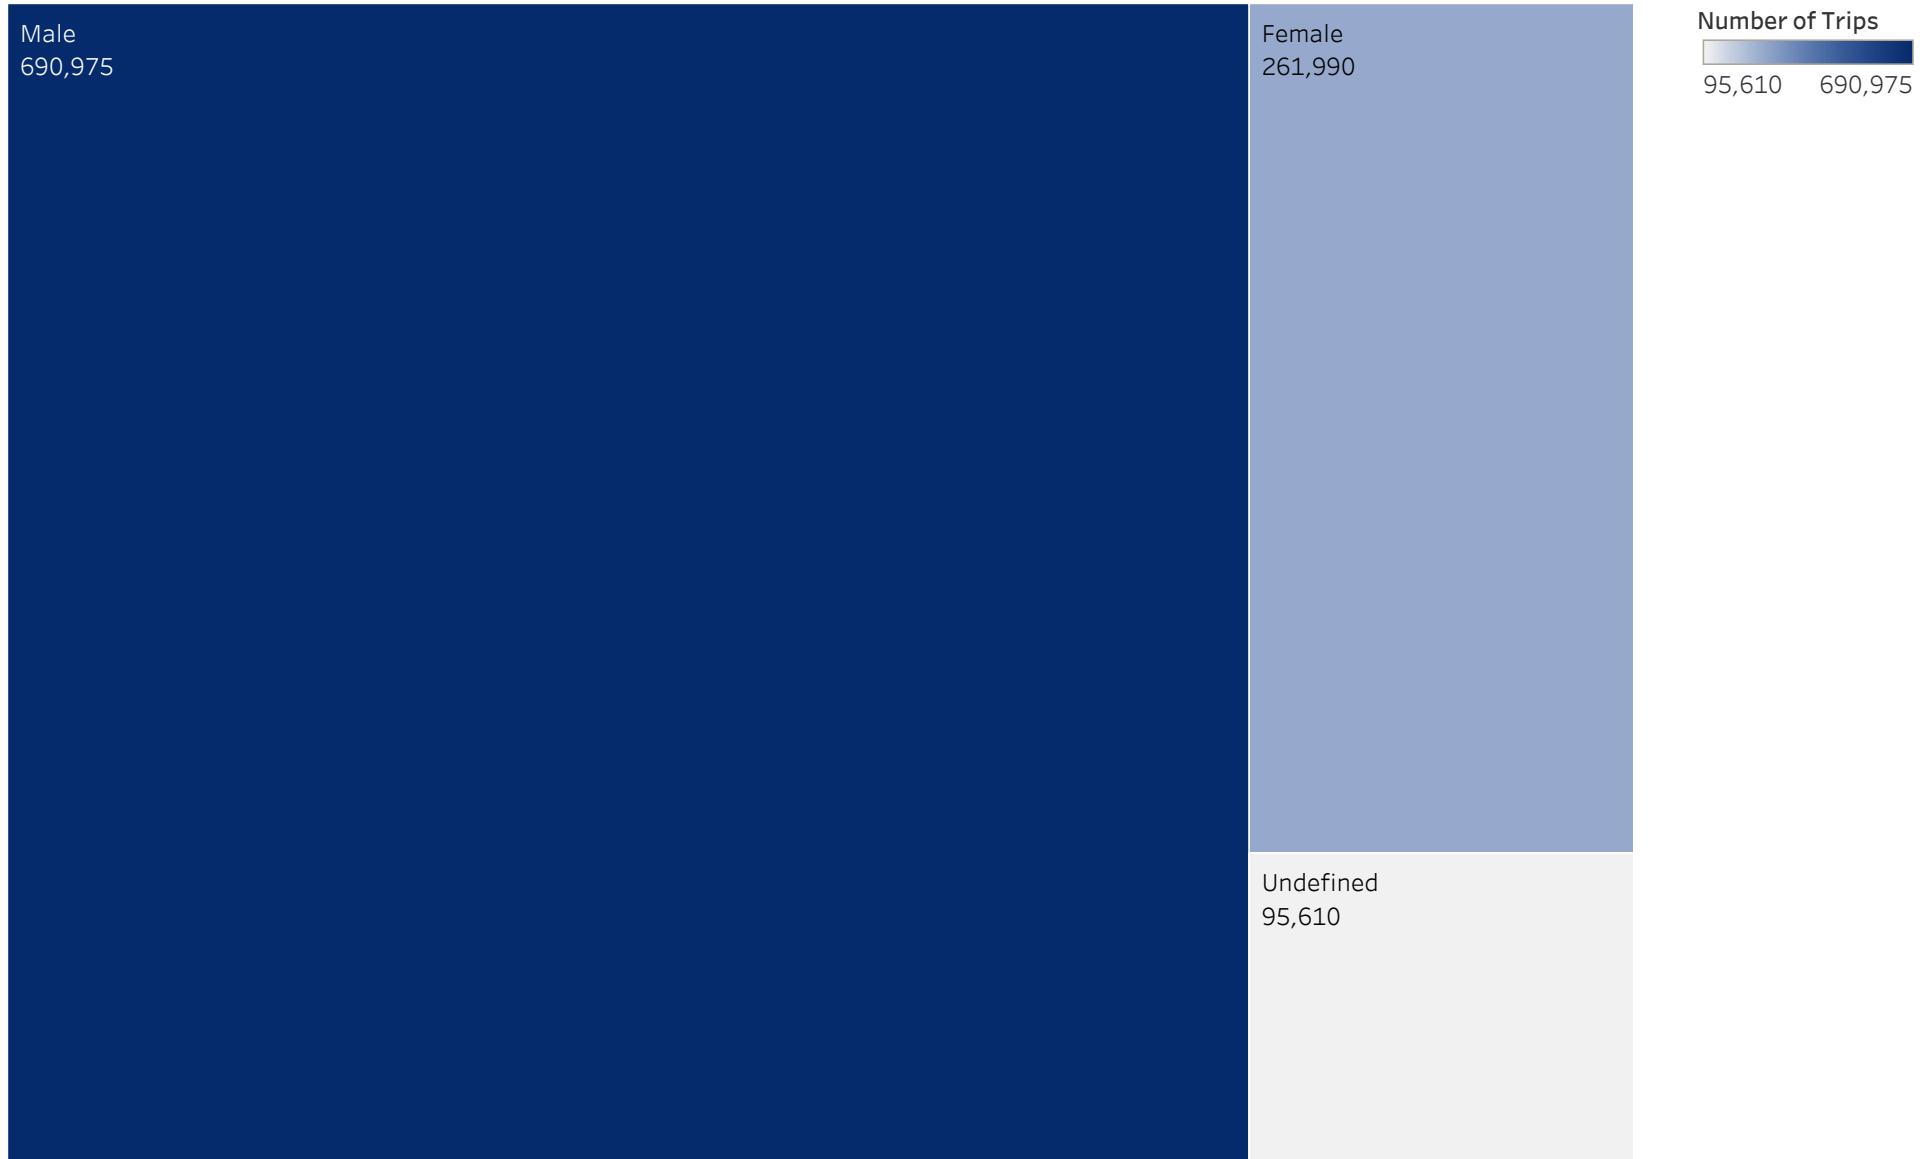

Sum of Number of Records for each Birth Year (group). The marks are labeled by sum of Number of Records.

Avg Trip Duration by Age

Average of Trip in Mins for each Birth Year (group). The marks are labeled by average of Trip in Mins.

Number of Trips by Gender

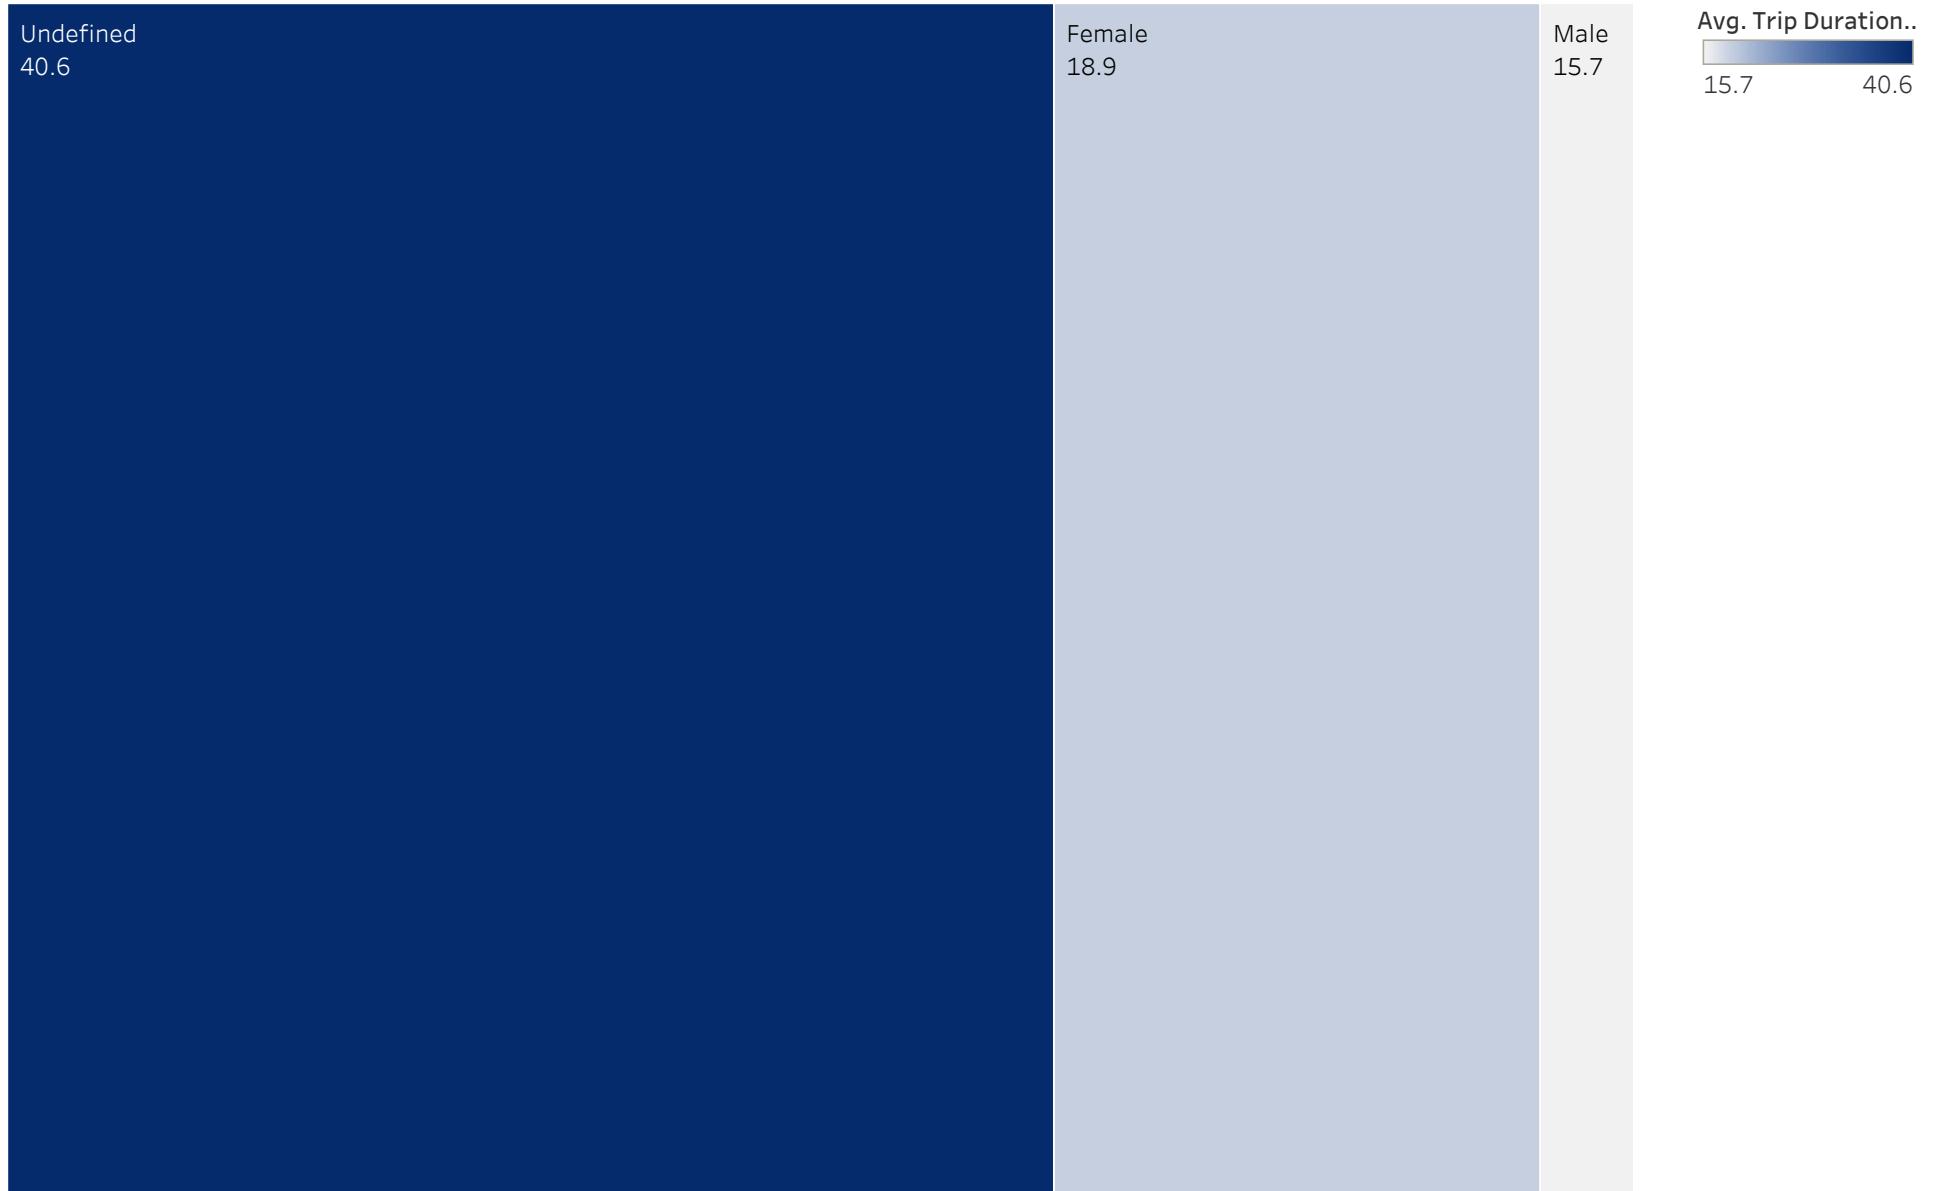

Gender and count of Number of Records. Color shows count of Number of Records. Size shows count of Number of Records. The marks are labeled by Gender and count of Number of Records.

Number of Trips by Gender

Gender and count of Number of Records. Color shows count of Number of Records. Size shows count of Number of Records. The marks are labeled by Gender and count of Number of Records.

Avg Trip Duration by Gender

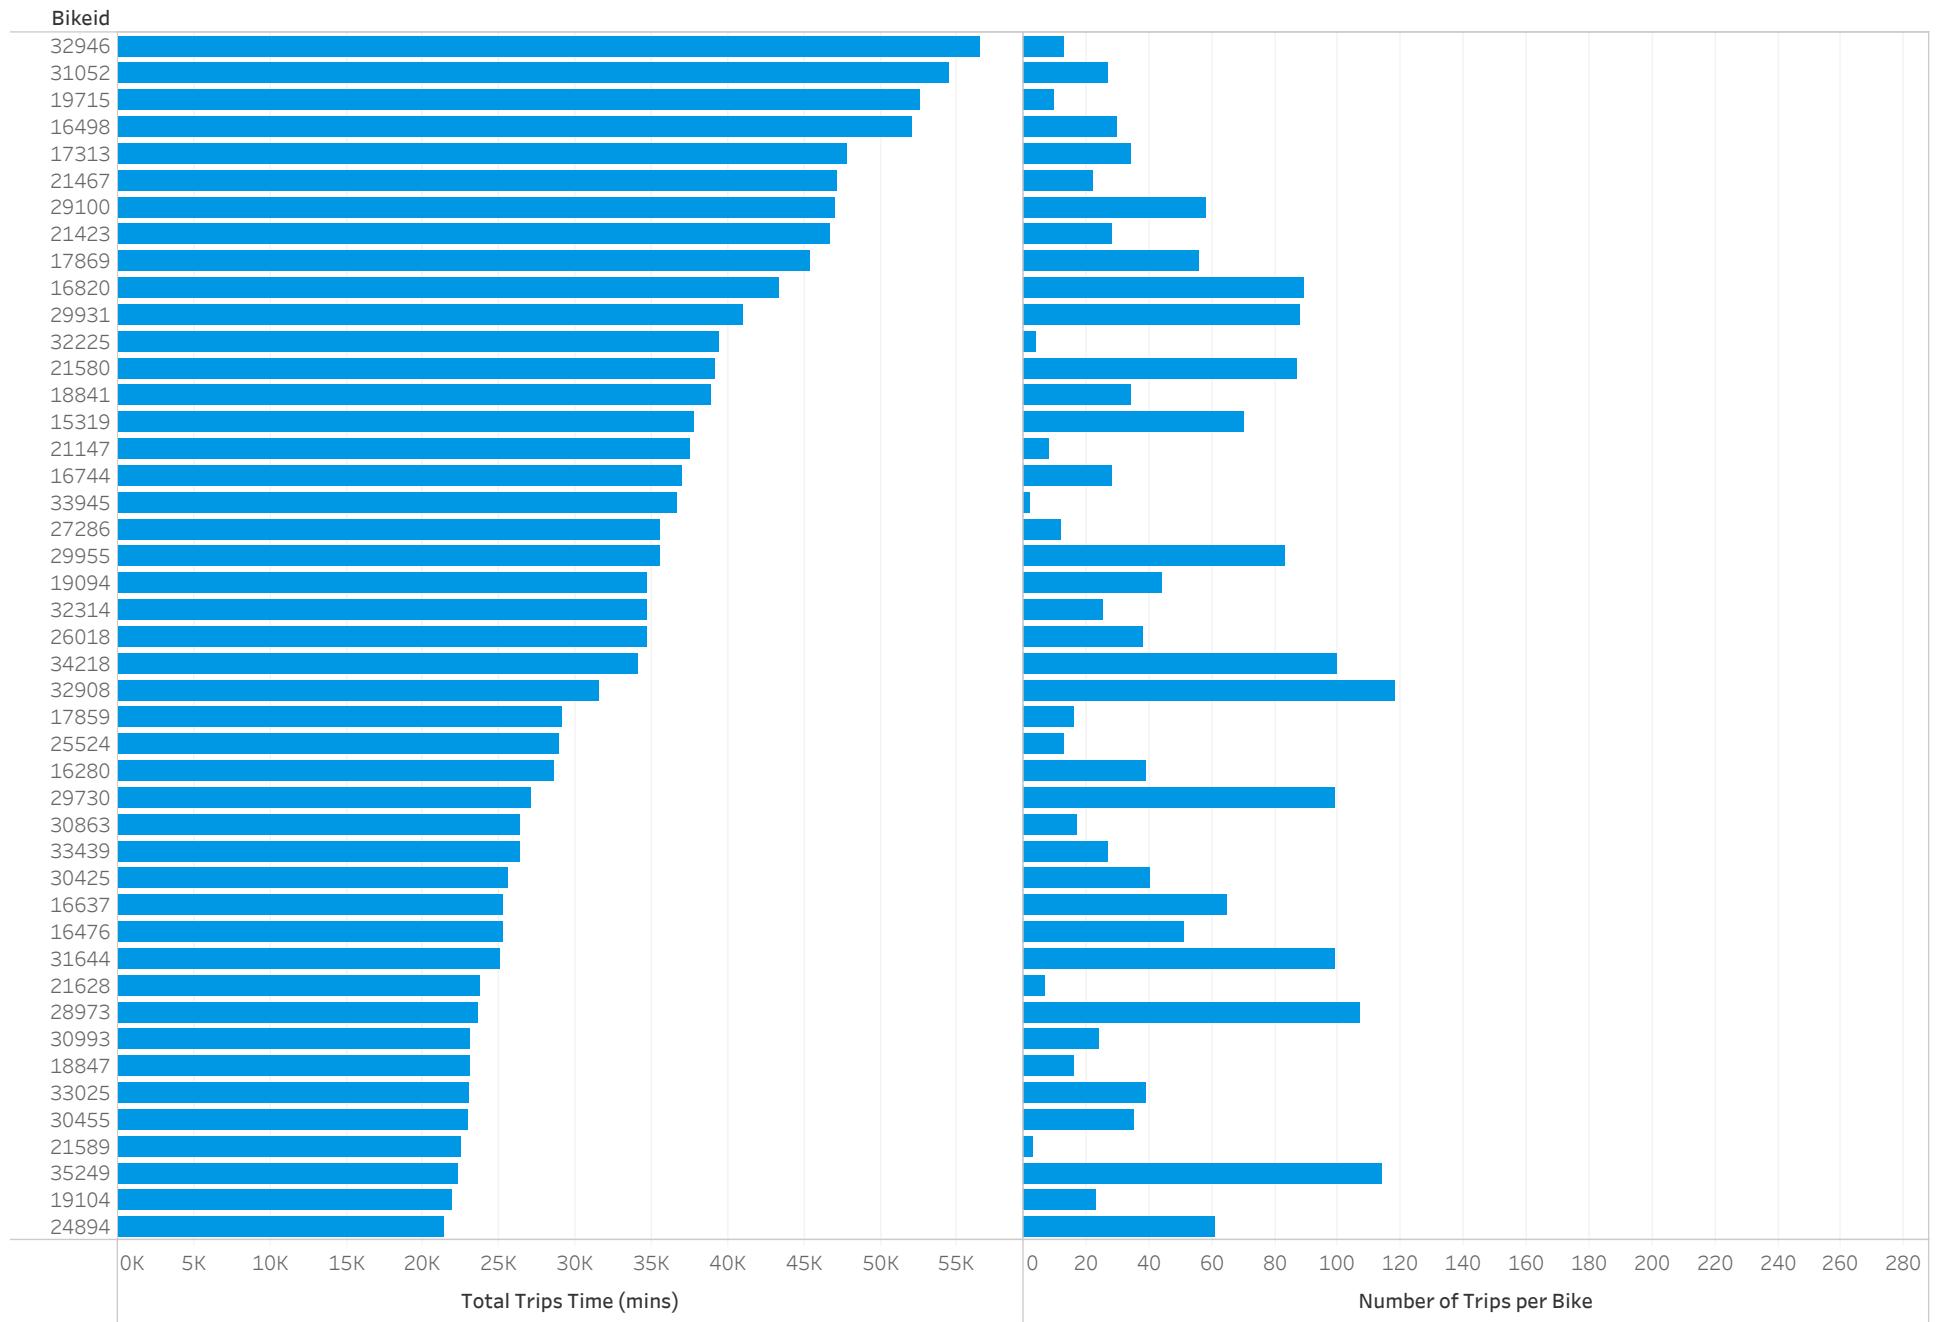

Gender and average of Trip in Mins. Color shows average of Trip in Mins. Size shows average of Trip in Mins. The marks are labeled by Gender and average of Trip in Mins.

Avg Trip Duration by Gender

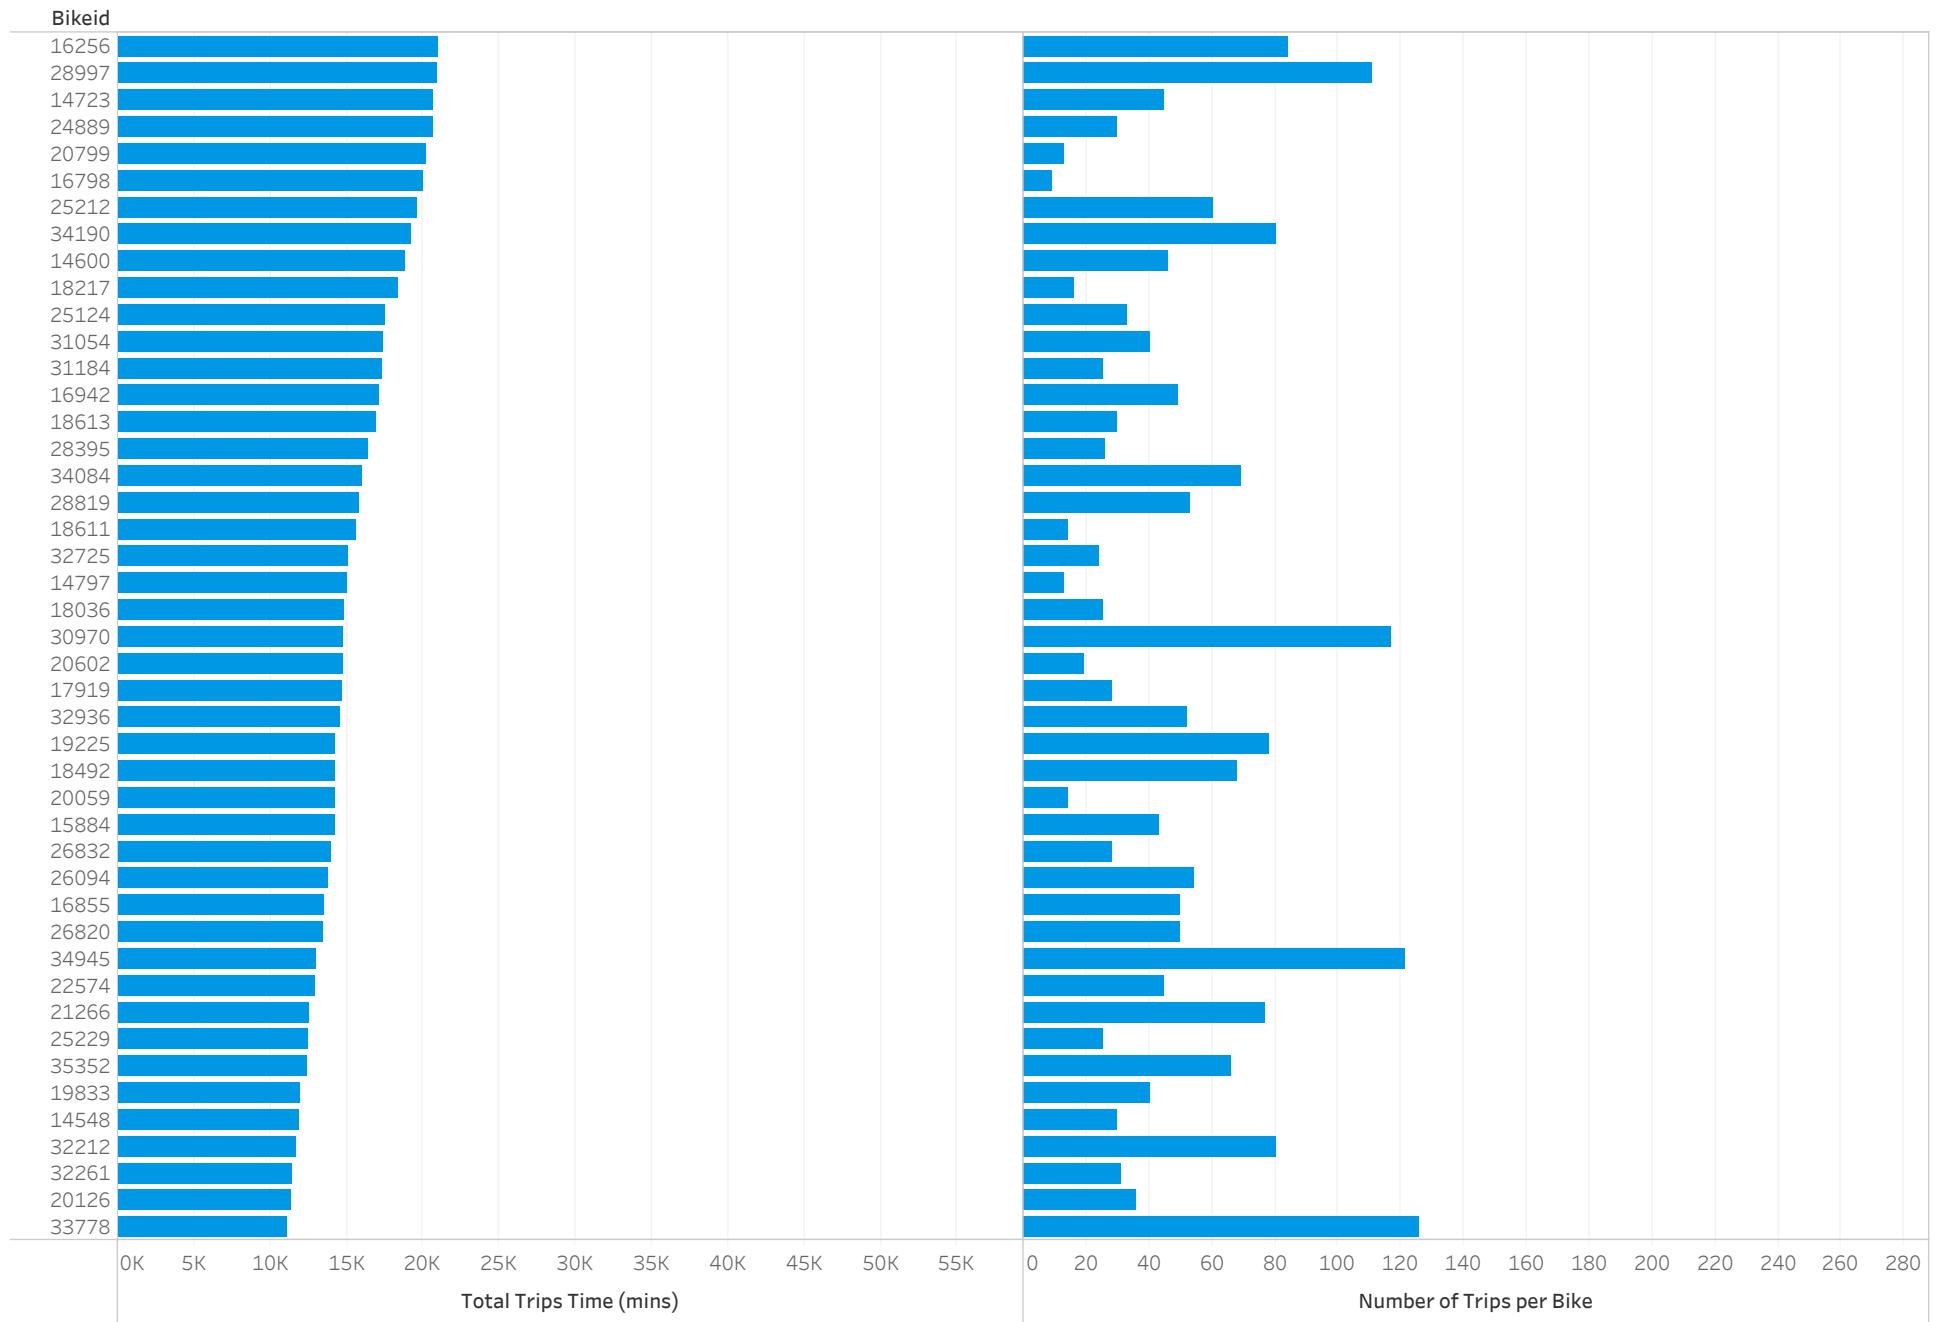

Gender and average of Trip in Mins. Color shows average of Trip in Mins. Size shows average of Trip in Mins. The marks are labeled by Gender and average of Trip in Mins.
